### **DETAILED ACTION**

1. The Applicants' preliminary amendment filed on January 6, 2005 is acknowledged. Claims 1, 3, 5-6, 10-12, 14, 16-18 and 20 are amended. Claims 21-22 are deleted. Now, Claims 1-20 are pending.

#### ***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I; claim(s) 1-11 and 14-20, drawn to a foam control composition comprising a specific polydiorganosiloxane and a non-polar polyol ester.

Group II, claim(s) 12-13, drawn to a foam control composition comprising a specific polydiorganosiloxane and a paraffin wax and/or microcrystalline wax.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack

Art Unit: 1712

the same or corresponding special technical features for the following reasons: The invention of Group I requires a polydiorganosiloxane with R groups having **specific mean number of carbon atoms** and a non-polar **polyol ester**, while that of Group II needs a polydiorganosiloxane with aromatic groups **indirectly** bonded to Si atoms and a **paraffin wax** and/or **microcrystalline wax**.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
